PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2 years of experience shipping production web and mobile applications, including Google Play apps with 10K+ and 5K+ downloads. Strong in TypeScript, React, Next.js, Node.js, and relational databases, with hands-on AWS deployment, REST API design, authentication, and Google Play / App Store release experience. Seeking a Software Engineer role in product engineering.

KEY ACHIEVEMENTS

- Pitched, built, and launched 4 client mobile apps on Google Play, including Jas & Yas Auto (10K+ downloads) and Manavai (5K+ downloads).
- Own products end to end: development, AWS deployment, store publishing, and production maintenance.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Dart, SQL, Python (learning FastAPI)

Frontend & Mobile: React.js, Next.js, Tailwind CSS, React Native, Flutter

Backend & Databases: Node.js, Express.js, REST APIs, PostgreSQL, MySQL, MongoDB, Prisma ORM, Supabase

Cloud & Tools: AWS, Docker, Vercel, Netlify, Git, GitHub, Google Play Console, Apple Developer, Search Console

Soft Skills: Client Pitching, Client Communication, Requirement Gathering, Ownership, Problem Solving, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

Founder / Full-Stack Developer | Rategle Technologies

2024 - Present

- Founded and lead a web, mobile, and AI services company delivering production applications to small and mid-size business clients; shipped 4 mobile apps to Google Play.
- Architect and ship full-stack products with React, Next.js, TypeScript, React Native, Flutter, Node.js, Express.js, PostgreSQL, MySQL, MongoDB, and Prisma.
- Pitch and onboard clients, gather requirements, and manage each project from kickoff to successful launch.
- Design REST APIs, database workflows, authentication flows, and third-party integrations.
- Own the release lifecycle: AWS deployment, production debugging, mobile builds, and Google Play / App Store publishing; apply technical SEO and ASO.

SELECTED PRODUCTION APPLICATIONS

Foodzy | August 2026 | [Google Play](#)

React Native, TypeScript, Node.js, Express.js, MySQL, AWS

- Built a food delivery mobile app and its Node.js / Express REST backend on MySQL, deployed on AWS.
- Resolved a Google Play review rejection by switching reviewer access to direct email/password login.

Manavai | May 2025 | [Google Play](#)

React Native, TypeScript, Node.js, Express.js, MySQL, AWS

- Built a food delivery and e-commerce mobile app, live on Google Play with 5K+ downloads, with Node.js / Express APIs and MySQL data workflows.
- Managed AWS hosting, deployment, and production operations for the live app.

LactoCompanion | February 2025 | [Google Play](#) | [App Store](#)

Flutter, Dart, Supabase, PostgreSQL

- Developed a cross-platform mobile app with Flutter, using Supabase and PostgreSQL for backend data.
- Implemented video-based lessons and user progress tracking; available on Google Play and App Store.

Jas & Yas Auto | December 2024 | [Google Play](#) | [App Store](#)

React Native, TypeScript, Node.js, Express.js, MySQL, AWS

- Developed and deployed a taxi booking and e-commerce mobile app, live on Google Play with 10K+ downloads.
- Built REST APIs with Node.js, Express.js, and MySQL; deployed and maintained on AWS.

WEB PRODUCTS

- Rategle Technologies (rategle.in): company website and technology platform. Next.js, React, TypeScript, Tailwind CSS.
- LEEE (leee.in): education and career-focused web platform.
- Bright Prime Car Care (brightprimecarcare.in): cinematic website for a car wash studio. Next.js 15, Framer Motion.
